

The 2019 Graduate Trainee Program is a two-year program designed to recruit aspiring and talents with leadership potential for the future development of the Company.

Graduate trainees have opportunity to explore and work in different functional attachments as well as project assignments.

We Offer

- A long-term & promising career development plan
- A wide spectrum of training and job exposure in various business functions
- Professional coaching & mentoring from senior management
- Competitive remuneration and benefits
- Group Medical and Dental Insurance Coverage
- Starting Basic Salary will be \$14.5k
- 5 day work week

Program Features

Experience in different department

- Job rotations will be provided during the two-years training. During the job rotations, trainees will have a chance to develop a wide range of practical work experience and broadly understanding the financial industry in different departments.

Support from senior and mentor

- Each trainee will be led by an experienced mentor to pass through the whole training. They will share his/ her own experiences and give support with understanding and caring.

Career Progression

- Upon completion of the program and subject to individual performance, you would be promoted to junior management level.

Responsibilities

- After the orientation training, trainees will be exposed to all aspects of training & practical work in branches and office, responsible to deliver a full range of consumer financial services including:
 - Credit assessment
 - Personal loan related advice
 - Credit card approval & issuance
 - Handle payment transaction
 - Handle customer enquiries
- Co-operate with senior management for various projects including business development, sales & marketing and internal operation

We are looking for:

- University graduates in any discipline
- Proven English and Cantonese proficiency
- Strong leadership potential
- An innovative mind and resilient attitude
- Good communication, interpersonal and analytical skills
- Self-motivated and pro-active
